

Butler County, Kentucky, all as more fully set forth in the application on file with the Commission and open to public inspection.

Tennessee proposes to abandon, partially by removal and partially in place, the Bowling Green Meter Station, which consists of a meter, piping and appurtenant facilities. It is stated that the facilities were installed in 1959 and are no longer needed, because a new meter station has been installed under Tennessee's automatic authorization to replace these facilities. It is asserted that the facilities proposed for abandonment are obsolete and that Tennessee has determined that upgrading the facilities would not be practical or cost effective. It is further asserted that the facilities have been inactive since April 1, 1997. It is estimated that the cost of removing the facilities would be \$22,000. Tennessee states that the proposal would not result in the abandonment of service to any customer.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 17, 1997, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be

unnecessary for Tennessee to appear or be represented at the hearing.

Lois D. Cashell,

Secretary.
